

I am concerned about the possibility of the K-LOVE radio station, which I listen to every day, being replaced by an LPFM station. K-LOVE is the primary radio station I listen to, and I would be very unhappy if it wasn't available to me. I know many people who also primarily listen to K-LOVE because there are no other radio stations in our area like it. In addition to listening to K-LOVE in my car, I listen to it online. If K-LOVE was not available, I would rarely even turn the radio on - I'd have to switch to CDs.

I hope you will consider what a benefit K-LOVE is to so many people. The music is very uplifting and people really need that kind of encouragement in these days. Please don't allow K-LOVE to be replaced by another station - we need it!

Thank you.
